CORE PRINCIPLES OF COACHING SUPERVISION

Coaching supervision is a reflective space for participants to focus on their own development in a way that benefits their clients and the wider system. As a group supervisor, we consider the different interconnected systems, and we utilize facilitation skills to work with group dynamics.

Are you trained in coaching supervision and would like to enhance your group supervision skills? Or perhaps you want to learn more about group supervision with colleagues interested in the same topic? Or maybe you want to start a group and would like to have support along the way?

In this virtual certificate program, supervisors will have an opportunity to further develop their group supervision skills through theory, practice, and reflection. The program will be aligned to the EMCC Core Competencies for Coaching SuperVision.

- Supervision of your Group Supervision experience.
- Journaling and sharing your learnings with questions to prompt your thinking (usually between webinars).

This program aligns with the EMCC supervision competency model related to group supervision. This program will have a diversity lens integrated into the modules. Participants will also receive CCEs (28 core and 8 resource) that can be applied to ICF renewal of credentials. There are an additional 4 hours of core CCEs for the individual supervision that is part of this program. You must attend the live sessions to receive these CCEs. For EMCC, you can claim up to 60 hours of professional development.

During the first session of this program, we will discuss setting up a supervision group that you will facilitate and journal about throughout this program. Your groups should have between 3-6 participants, and you will be expected to facilitate a minimum of 4 sessions for the purposes of this program (90-120 minutes each) so you can move through a full cycle of group supervision, from contracting to ending. You will be asked to share your experience and questions in the class for discussion and learning.

To complete the program, you must:

- Read the sections of the books assigned and post your learnings on Basecamp

- **One paper on your philosophy as a group coaching supervisor.**

**** It is expected that you will participate from a private space where you are able to participate fully, without any distractions.**

This program is very interactive and experiential, with emphasis on application and reflective practice. Participants will learn and apply the theories in their practice groups as well as their own supervision group outside of the classroom setting.
